

# The Pharmacy Check List

A reference guide to ordering at the pharmacy

## Before You Go

-  Be more knowledgeable and call your insurance provider to find out what the cost of your prescription should be.
-  Don't forget your coupon!

## At the Pharmacy

-  Once the pharmacist has told you how much your prescription will cost, ask them if they ran your insurance to make sure the price is accurate.
-  Make sure the pharmacist runs your coupon no matter the cost of your prescription.
-  If the pharmacist tells you that your prescription is not in stock, ask to have it ordered. They should be able to get it to you within 24 hours.
-  **DO NOT** switch to any prescriptions that your doctor did not prescribe.
-  Ask your pharmacist if they have a recurring refill program.
